PROFESSIONAL SUMMARY

Motivated and driven Industrial Engineering student at the University of Arkansas with a strong foundation in academic excellence, entrepreneurship, leadership, and service. USAF ROTC cadet with demonstrated commitment to discipline and team performance. Experienced in business operations, financial management, client service, and technology development through self-employment. Eager to apply analytical and engineering principles in a professional setting.

EDUCATION

Bachelor of Science in Industrial Engineering — Expected 2029
University of Arkansas, Fayetteville, AR
- Sophomore student studying Industrial Engineering

High School Diploma — 2025
Regents School of Austin, Austin, TX
- GPA: 3.09
- Mother Teresa Award × 4 (2020–2025) — recognizing outstanding service and character
- Apostle Paul Award in Chemistry (2024–2025) — academic excellence in science

Spanish Language Immersion Program — Summer 2023
Universidad de Granada, Granada, Spain
- Completed intensive Spanish language and cultural immersion coursework abroad

SKILLS & LANGUAGES

- Spanish — Conversational proficiency (Spain 2023 & Ecuador 2026)
- Strengths: work ethic, communication, time management, adaptability & team building
- Leadership development & critical thinking
- Strong analytical and problem-solving foundation

EXPERIENCE

Co-Founder & Operations Lead — Summer 2026
Clear Lake ATX — Lake Austin, TX
- Co-founded and operated a Texas LLC; obtained an EIN and TPWD commercial permit while managing service agreements and compliance for residential and HOA clients
- Generated $50,000+ in first-summer revenue without outside funding; managed job-level revenue, expenses, margins, sales tax, and cash flow across Venmo and Stripe
- Designed a standardized pricing model using square footage, water depth, and vegetation density; developed SOPs for scheduling, equipment, job execution, and customer follow-up
- Recruited, trained, and supervised crew members; implemented performance-based pay tiers and standards for Hydrilla extraction, safety, equipment handling, and customer service
- Built and deployed a full-stack internal business hub using HTML, JavaScript, Supabase/PostgreSQL, and Netlify with job calculations, cloud records, pay tracking, profit analytics, contracts, and automated Stripe invoicing
- Led customer acquisition across 12 channels and secured residential and HOA contracts; evaluated a $500,000 acquisition offer from a regional aquatic-management company

Self-Employed — 2022 – 2025
Pool Cleaning & Neighborhood Services — Austin, TX
- Provided reliable pool maintenance, cleaning, and neighborhood services to residential clients
- Built and maintained client relationships through professionalism, reliability, and attention to detail

EXTERNSHIP

Student Observer — Engineering Externship — 2025
Chipletz | Silicon Labs | Electric Power Engineers — Austin, TX
- Toured facilities at three Austin-based engineering firms, including in-house chip manufacturing operations at Silicon Labs
- Gained firsthand exposure to electrical and industrial engineering careers across semiconductor and power industries
- Explored real-world applications of engineering principles to inform academic and professional direction

LEADERSHIP & ACTIVITIES

USAF ROTC Cadet 2025 – Present

University of Arkansas Air Force ROTC, Fayetteville, AR

- Honor Flight Award recipient (2025) — recognized for outstanding performance and dedication

VOLUNTEER & COMMUNITY SERVICE

Buddy & Camp Counselor 2020 – 2025

Camp Blessing — Brenham, TX

- 400+ hrs as one-on-one Buddy & Camp Counselor for children with disabilities
- Created inclusive, joy-filled experiences supporting campers through daily activities, recreation, and personal care

Additional Community Service

- 100+ additional community service hours across various outreach initiatives; 500+ total verified hours (2020–2025)
